

BlueMedicare Classic

Dental benefit summary

Our BlueMedicare Classic plan includes dental coverage designed with your health and budget in mind.

Take advantage of your dental benefits

Original Medicare doesn't cover typical dental services, but your BlueMedicare plan does—it covers regular dental checkups that help your dentist find problems before they require major, costly dental procedures.

The quality you expect from Blue

Florida Blue Medicare is your trusted partner for your medical and dental health. We have the local expertise to ensure that our networks include only dentists credentialed to meet Florida Blue Medicare's high standards.

What's included with your BlueMedicare plan

Coverage for dental services, including:

- Dental cleanings
- Dental X-rays
- Oral exams
- Simple extraction
- Denture adjustment

You may get care from the dentist of your choice, but there are no out-of-pocket costs or annual dollar maximums for any covered services when you visit a dentist in our network. We negotiate discounted prices with dentists in our network; if you use more dental services than your plan covers, you will be charged the discounted negotiated rates. Check your Evidence of Coverage (EOC) for full details. You can find your EOC by accessing your online member account at floridablue.com/medicare.
