Orthodontics	101
Adjunctive General Services	108

ABOUT THIS GUIDE

This guide is organized according to the latest and most current edition of the American Dental Association (ADA) Current Dental Terminology (CDT) procedure codes. We accept only coding that is consistent with the verbal descriptors of CDT. However, the presence of a code in the CDT does not mean that a subscriber has coverage available. We determine member benefits on the basis of our administrative policies and the terms of the subscriber's certificate. As always, we remind you to check benefits and eligibility before performing services.

Some of the categories of service have introductory sections to explain what information you need to provide to facilitate our claim processing. For a more complete description of procedures, please refer to the *American Dental Association, Current Dental Terminology 2025*.

We've designed these administrative guidelines and policies to promote our members' long-term oral health. We review our policies on an ongoing basis to determine clinical appropriateness and to reflect significant technical advances.

For each code, we have provided specific guidelines and recommendations with respect to time, age, or other contractual limitations or exclusions. We have also noted when procedures are not covered benefits. We also indicate procedure codes that require radiographic (X-ray) imaging documentation and other supplementary documentation. Please use this guide to determine the correct code to describe the service you provided to your patient. We hope that making our policies and guidelines clear and easily available will enable your office to receive the appropriate compensation for the services provided to our members, your patients.

If you need additional information on how to submit a claim, you can:

- ✓ Refer to the Dental Administrative Manual
- ✓ Go to [Plans and documents | Florida Blue Dental](#) to access administrative information
- ✓ Call the Dental Information Center at 1-866-445-5148

UTILIZATION MANAGEMENT

While we continue to conduct utilization review on submitted claims, we will no longer routinely require submission of radiographs or periodontal charting from participating Florida Combined Life PPO/EPO providers. Please refer to the *Submission Requirements* column for any specific requirements needed when submitting claims for treatment.

What is “Necessary and Appropriate Treatment?”

Our members’ certificates of coverage specify that all dental care must be “necessary and appropriate to diagnose or treat a dental condition”; and defines dental care as inclusive of services, procedures, supplies, and appliances.” In addition, the certificates identify the criteria used to determine the necessity and appropriateness of the member’s dental care as follows:

- ✓ Consistent with the prevention and treatment of oral disease or with the diagnosis and treatment of teeth that are decayed or fractured, or where the supporting structure is weakened by disease (including periodontal, endodontic, and related diseases).
- ✓ Furnished in accordance with standards of good dental practice.
- ✓ Not solely for the member's or dentist's convenience.

How Do We Determine Necessity and Appropriateness of Treatment?

Based on a review of the submitted documentation, our dental consultants determine available benefits for certain types of procedures, including, but not limited to, cast restorations, periodontal services, oral surgery services, implants, orthodontics and fixed and removable prosthetics. A dental consultant reviews the treatment plan objectively and determines whether the services are within the scope of benefits, and whether these services appear to be necessary and appropriate for the member. Based on these findings, we may determine that a service is not *necessary and appropriate* for the member, even if a dentist has recommended, approved, prescribed, ordered, or furnished the service.

Services That Are Non-covered Due to Contractual Limitations

There are situations in which specific services are not covered regardless of whether the procedure is a covered benefit. These are considered contractual limitations and are outlined in the Subscriber Certificate under “Limitations and Exclusions.” Examples include a service performed for cosmetic purposes rather than for tooth decay or fracture; or a service that is exploratory in nature.

Information We Need to Review a Procedure

To thoroughly review a procedure, we may need pertinent documentation supporting your patient's treatment. This *Guide* identifies the information you must submit for any procedure that requires review. In cases where we request a detailed narrative, please supply details about the patient's condition that will help us evaluate your claim and reimburse you appropriately.

When Documentation Is Requested

As previously stated while we continue to conduct utilization review on submitted claims, we no longer routinely require submission of radiographs or periodontal charting from participating Florida Combined Life providers however, we may request them from time to time. You will be contacted should we require them to review a particular case. Please refer to the *Submission Requirements* column for any specific requirements needed when submitting claims for treatment.

When we do request documentation, please remember that radiographs must be:

- ✓ Preoperative radiographic images that are current and dated
- ✓ Labeled "left" or "right" side if they are duplicates
- ✓ Mounted if they are a full series
- ✓ Of diagnostic quality

Please remember to include:

- ✓ The member's name and ID
- ✓ The dentist's name and address

Refer to the specific code listing to determine what additional documentation is required.

		<u>HCR Pediatric Plan</u> <u>BlueDental Choice Q and QF</u> <i>ages 0 through 19</i>		<u>HCR Adult Plan</u> <u>BlueDental Choice QF</u> <i>ages 19+</i>		<u>All HCR Plans</u>
CDT Code	Description of Service	Procedure Guidelines/Frequency Limitation	Submission Requirements	Procedure Guidelines/Frequency Limitation	Submission Requirements	Integral Considerations and/or Exclusions
CDT D0100 - D0999 DIAGNOSTIC SERVICES - The codes in this section recognize the cognitive skills necessary for patient evaluation. The collection and recording of some data and components of the dental examination may be delegated; however, the evaluation, which includes diagnosis and treatment planning, is the responsibility of the dentist. As with all ADA procedure codes, there is no distinction made between the evaluations provided by general practitioners and specialists. Report additional diagnostic and/or definitive procedures separately.						
D0120	Periodic oralevaluation - established patient evaluation, update dental and medical health status, oral cancer evaluation, periodontal screening where indicated, and interpretation of information acquired through additional diagnostic procedures. The findings are discussed with the patient	Two per benefit period (any combination with D0140, D0180)	None	Two per benefit period	None	None
D0140	Limited oral evaluation: problem-focused	Two per benefit period (any combination with D0120, D0150, D0180)	None	Two per benefit period	None	Limited to a specific oral health problem or complaint
D0145	Oral evaluation for a patient under 3 years of age and counseling with primary caregiver	Not a covered procedure	None	Not a covered procedure	None	None

NOTE: These CDT Procedure Guidelines are to be used as a reference for claim submission based on the level of benefits for each subscriber's plan. Particular details will vary from plan to plan. Verification of eligibility and individual plan benefits is required to determine the specific level of benefit coverage. Not all Benefit plans include Enhanced benefits.

		<u>HCR Pediatric Plan</u> <u>BlueDental Choice Q and QF</u> <i>ages 0 through 19</i>		<u>HCR Adult Plan</u> <u>BlueDental Choice QF</u> <i>ages 19+</i>		<u>All HCR Plans</u>
CDT Code	Description of Service	Procedure Guidelines/Frequency Limitation	Submission Requirements	Procedure Guidelines/Frequency Limitation	Submission Requirements	Integral Considerations and/or Exclusions
D0150	Comprehensive oral evaluation, new or established patient	Two per benefit period (any combination with D0120, D0140, D0180).	None	One per lifetime per provider	None	The exam is a thorough evaluation and recording of the extraoral hard and soft tissues. Includes an evaluation for oral cancer, evaluation and recording of dental and medical history a general health assessment, evaluation and recording of dental caries, missing or un-erupted teeth, restorations, existing prostheses, occlusal relationships, periodontal conditions (including periodontal screening and/or charting), hard and soft tissue anomalies, etc.
D0160	Detailed, extensive oral evaluation-problem focused, by report	By report	None	Two per benefit period	None	Includes focused evaluation, extensive diagnostic and cognitive modalities based on the findings of a comprehensive oral evaluation
D0170	Re-evaluation: limited, problem focused (established patient, not post-operative visit)	Not a covered procedure	None	Two per benefit period	None	None
D0171	Re-evaluation – post – operative office visit	Not a covered procedure	None	Not a covered procedure	None	None
D0180	Comprehensive periodontal evaluation: new or established patient	Two per benefit period (any combination with D0120, D0140, D0150).	None	Two per benefit period.	None	. Includes evaluation of periodontal conditions, probing and charting, the evaluation of oral cancer and evaluation and recording of dental and medical history and general health assessment, the evaluation and recording of dental caries, missing or un-erupted teeth, restorations and occlusal relationships

NOTE: These CDT Procedure Guidelines are to be used as a reference for claim submission based on the level of benefits for each subscriber's plan. Particular details will vary from plan to plan. Verification of eligibility and individual plan benefits is required to determine the specific level of benefit coverage. Not all Benefit plans include Enhanced benefits.

		<u>HCR Pediatric Plan</u> <u>BlueDental Choice Q and QF</u> <i>ages 0 through 19</i>		<u>HCR Adult Plan</u> <u>BlueDental Choice QF</u> <i>ages 19+</i>		<u>All HCR Plans</u>
CDT Code	Description of Service	Procedure Guidelines/Frequency Limitation	Submission Requirements	Procedure Guidelines/Frequency Limitation	Submission Requirements	Integral Considerations and/or Exclusions
PRE-DIAGNOSTIC SERVICES						
D0190	Screening of a patient	Not a covered procedure	None	Not a covered procedure	None	A screening, including state or federally mandated screenings, to determine an individual's need to be seen by a dentist for diagnosis
D0191	Assessment of a patient	Not a covered procedure	None	Not a covered procedure	None	A limited clinical inspection that is performed to identify possible signs of oral or systemic disease, malformation, or injury, and the potential need for referral for diagnosis and treatment
DIAGNOSTIC IMAGING - Should be taken only for clinical reasons as determined by the patient's dentist. Should be of diagnostic quality and properly identified and dated. Is a part of the patient's clinical record and the original images should be retained by the dentist. Originals should not be used to fulfill requests made by patients or third parties for copies of records						
IMAGE CAPTURE WITH INTERPRETATION						
D0210	Intraoral - comprehensive series of radiograph images	One (1) every sixty (60) months	None	One (1) every thirty-six (36) months	None	Coverage is based on last service date. Not covered if performed on same day as Panoramic x-ray image.
D0220	Intraoral - periapical first radiographic image	None	None	As needed	None	Periapical films, for diagnostic purposes, covered subject to clinical necessity. Intra-operative "working" radiographs are included with complete root canal therapy
D0230	Intraoral - periapical – each additional radiographic image	None	None	As needed	None	Periapical films, for diagnostic purposes, covered subject to clinical necessity. Intra-operative "working" radiographs are included with complete root canal therapy

NOTE: These CDT Procedure Guidelines are to be used as a reference for claim submission based on the level of benefits for each subscriber's plan. Particular details will vary from plan to plan. Verification of eligibility and individual plan benefits is required to determine the specific level of benefit coverage. Not all Benefit plans include Enhanced benefits.

Endodontics

Please note the following:

- Endodontic procedures include exams, pulp tests, pulpotomy, pulpectomy, extirpation of pulp, and pre-operative, operative, and post-operative radiographs/diagnostic images, filling of canals, bacteriologic cultures and local anesthesia.
- Endodontic therapy performed specifically for coping or overdenture is not covered.
- Please bill claims for multiple-stage procedures only on the date of completion/insertion.
- Payment for endodontic services does not mean that benefits will be available for subsequent restorative services. Coverage for those services is still subject to exclusions listed under major restorative guidelines.

Periodontics

Procedure Billing Guidelines

- A quadrant is defined as four (4) or more contiguous teeth in a quadrant. A partial quadrant is defined as one (1) to three (3) teeth in a quadrant.
- For billing purposes, a sextant is not a recognized designation by the American Dental Association.
- To be covered, alveolar crestal bone loss must be evident radiographically for scaling and root planing.
- When more than one (1) periodontal service (codes D4000-D4999) is completed within the same site or quadrant on the same date of service, The Plan will pay for the more extensive treatment as payment for the total service.
- Benefits for all periodontal services are limited to two (2) quadrants per date of service. If you wish to request an exception due to a medical condition that may require your patient to receive extended treatment, please include a detailed narrative including general or intravenous anesthesia record, medical condition and length of appointment time for consideration.

Payment for Surgical Services

- Payment for definitive periodontal service includes follow-up evaluation for both surgical and non-surgical procedures.
- We provide payment only for one (1) surgical procedure per quadrant per thirty-six (36) months. No more than two (2) quadrants of surgical or non-surgical services may be covered when done on the same date of service. To request an exception due to a medical condition that may require your patient to receive extended periodontal treatment, please submit a detailed narrative including general or intravenous anesthesia record, medical condition, and length of appointment time for consideration with the claim form.
- When localized procedures are performed in the same quadrant within thirty-six (36) months, the payment will not exceed the full quadrant allowance.
- **Periodontal services are benefits when performed for the treatment of periodontal disease around natural teeth. There are no benefits for these procedures when billed in conjunction with or in preparation for implants, ridge augmentation, extractions sites and endodontic surgeries.**
- When localized surgical or pre-surgical services are performed in the same quadrants within coverage time guidelines, payment for the services will not exceed the full quadrant allowance.

Implant Services

Medically Necessary Implant Services: This benefit is available to pediatric patients only. To qualify for medically necessary implant services, it must be demonstrated that the patient's arch cannot be restored with a standard prosthesis or restoration, removable or fixed; or that the patient is unable to function in speech and mastication without a prosthesis or restoration. Please verify the member's eligibility and benefits prior to rendering services as a waiting period and a missing tooth clause may be applicable. Prior authorization and approval is required before services are rendered. Claim review is conducted by a licensed dentist who will review the clinical documentation submitted by the treating dentist.

Medically Necessary Orthodontic Services: This benefit is available to pediatric patients only. To qualify for medically necessary orthodontia services, treatment must result from congenital or developmental malformations related to or developed as a result of cleft palate, with or without cleft lip. Treatment must be rendered by an orthodontist and prior authorization and approval is required before services are rendered. Claim review is conducted by a licensed dentist who will review the clinical documentation submitted by the treating dentist.

All of the following orthodontic treatment codes D8000-D8999 may be used more than once for the treatment of a particular patient depending on the particular circumstance. A patient may require more than one limited or comprehensive procedure depending on their particular problems. LIMITED ORTHODONTIC TREATMENT.
